<<AI and Space Conference>>
One-day conference, with the program running for approximately two hours on Mangsir 3, 2083. The conference will focus on emerging possibilities in space technology, particularly: Building and operating data centers in space The use of Artificial Intelligence in space exploration AI-assisted spacecraft and mission operations Future applications of space-based computing Opportunities and challenges in Nepal's aerospace and space-tech ecosystem The conference will provide an opportunity for participants to listen to experts, exchange ideas, and discuss the future

of AI and space technology.

<<STEAM, Astronomy and Aerospace Camp>>
As part of the event, a hands-on STEAM, Astronomy and Aerospace Camp will be conducted for approximately 100 participants from 20 different schools and colleges. The camp will provide students with practical exposure to emerging technologies through specialized workshops, including:
1. RC Aircraft Workshop
2. FPV Drone Workshop
3. Astronomy Workshop
4. Advanced Robotics Workshop
5. Nano Satellite Workshop

The workshops will emphasize learning by doing, allowing participants to design, build, experiment, operate, and demonstrate technology-based projects.

Highlights (ICONS)

- Startup Exhibition
- AI & Space Conference
- STEAM Camp
- Mock Interview
- Aerospace Workshops
- Astronomy
- Robotics
- RC Aircraft
- FPV Drones
- UAVs
- Satellites
- Rockets
- Telescopes
- IoT
- Technology Demonstrations
- On-Spot Games

About Page

Startup & Idea Fest is Nepal's biggest startup and innovation exhibition, serving as a pre-event to the ICT Award 2026. The two-day festival unites startups, innovators, investors, students, and change-makers from all seven provinces, offering a national platform to showcase groundbreaking ideas, products, and technologies.

Experience Nepal's largest startup and innovation festival, bringing together young

entrepreneurs, innovators, investors, students, and change-makers from across all provinces.

Explore ideas, witness cutting-edge innovations, and connect with leaders shaping Nepal's startup ecosystem. This event aims to create an environment where ideas meet technology, students meet innovation, and innovation meets opportunity. Through the combination of startups, AI, Space Technology, STEAM Education, Astronomy, Aerospace, Robotics and hands-on project development, the event seeks to inspire young people to become creators, innovators and problem-solvers.

Objectives:

- **Promote Innovation & Entrepreneurship:** Encourage young innovators to bring real-world solutions.
- **Connect Ecosystem Players:** Bridge the gap between startups, investors, academia, and policymakers.
- **Recognize Provincial Talents:** Highlight the best startups from each province for national recognition.
- **Support Digital Transformation:** Strengthen Nepal's digital economy through tech-driven startups.
- **Create Learning Opportunities:** Offer bootcamps, mentorship, and expert sessions for startups

  .

Event Highlights:

- Exhibition featuring 150+ startups and innovative products
- Aerospace and rocket showcase
- Drone and robotics demonstrations, including competitions
- Workshops and job fair opportunities
- Idea pitching and product demonstrations following the fest
- Pre-fest mentorship and bootcamp sessions
- Investor and startup networking sessions
- Recognition of top startups at ICT Award 2026
- Extensive media coverage across TV, print, and digital platforms

Vision

This event aims to create an environment where ideas meet technology, students meet innovation, and innovation meets opportunity. Through the combination of startups, AI, space technology, STEAM education, astronomy, aerospace, robotics and hands-on project development, the event seeks to inspire young people to become creators, innovators and problem-solvers. The event will provide a common platform where participants can learn, build,

demonstrate, connect and imagine the future.

Impact:
In previous years, Startup & Idea Fest has emerged as a landmark platform in Nepal's innovation landscape. Since its inception, it has showcased over 750 startups and 1,200 innovative projects from all seven provinces. Many startups that participated in the Fest have gone on to secure national recognition through the ICT Awards, attract funding, and scale their businesses nationwide. The event has helped shape policy discussions around digital entrepreneurship and inspired educational institutions to launch incubation and innovation programs.

It has become a bridge connecting the provincial innovation ecosystem to national and global opportunities, encouraging thousands of young innovators to build impactful tech solutions. Through partnerships with academia, investors, and tech companies, the event has contributed to growing the digital economy, stimulating startup culture, and positioning Nepal as an emerging hub for innovation in South Asia.

Conferences and Camps: The event will feature two major segments. The first segment will focus on the Startup Exhibition, while the second segment will bring together the AI and Space Conference and the STEAM, Astronomy and Aerospace Camp. The AI and Space Conference will be conducted as a one-day conference, with the program running for approximately two hours on Mangsir 3, 2083. As part of the event, a hands-on STEAM, Astronomy and Aerospace Camp will be conducted for approximately 100 participants from 20 different schools and colleges. Alongside the workshops and conference, visitors will be able to explore an exhibition of advanced technology and aerospace products. To make the event more interactive and engaging, on-the-spot games and technology-related activities will also be conducted during the event.

3. Registration, Voting & Participants
Registration:

- FREE ENTRY
- Register & Learn More: www.startupnepal.org | www.ictaward.org
- The AI and Space Conference will be open free of charge to participants of the STEAM and Aerospace Camp as well as other interested individuals, subject to available capacity.

Voting Page:

- Audience voting and interactive engagement activities *(Website Structure Note: Insert interactive audience voting portal and live tally dashboard in this section).*

Participating Lists:

- Exhibition featuring 150+ startups and innovative products
- As part of the event, a hands-on STEAM, Astronomy and Aerospace Camp will be conducted for approximately 100 participants from 20 different schools and colleges. *(Website Structure Note: Insert dynamic grid or list profiling the specific exhibiting startups and the 20 participating schools).*

4. Past Events, Partners & Contact

Past Events:

The event was started from 2021.
